

Dear Physician or Healthcare Provider:

Your patient has expressed an interest in the FemCap contraceptive cervical cap. It is an RX rated Medical device and therefore will need a prescription.

As many pharmacies may not currently stock the FemCap, we thought you might want to purchase and dispense the FemCap right from your office, offering your patient a tremendous convenience and cost savings compare to having their prescription filled at a local pharmacy.

If this service would be of interest to you for your practice, please contact HPSRx customer service for our Clinic/Physician account application. The application will need to be completed and faxed back along with your physician license and product order.

If you would like any additional information, please call our toll free number or visit our website at www.hpsrx.com.

What a great way to help your patients! We thank you for your time and assistance with your customer's request!

Sincerely,

The HPSRx Team
